

Fall/Winter Special Bundle

Winter is on the way! Are your forklifts prepared?

It's time to prepare your material handling equipment for the sub-freezing temperatures of winter with a coolant change and equipment inspection.

We've packaged these services into a Winter Special that is much **less expensive than if they were purchased separately**. You choose whether you want the work done at your location or our shop where we can do a more complete inspection and cleaning.

In House Spring Special Includes:

- ◆ Pickup and delivery of equipment to our service department.
- ◆ High pressure cleaning.
- ◆ Pressure test of cooling system and coolant change.
- ◆ Complete safety check.
- ◆ Remove and clean all battery connections.
- ◆ Perform 20 point mechanical inspection.
- ◆ Discounted rates on any other work done while in shop.
- ◆ Return of equipment to your facility.
- ◆ ALL FOR **\$410.00** each unit – there may be additional charges for equipment outside of 25 mile radius of our shop.

Spring Special at your location. Package includes:

- ◆ Pressure test of cooling system and antifreeze change.
- ◆ Complete safety check.
- ◆ Remove and clean all battery connections.
- ◆ ALL FOR **\$355.00** each unit – all inclusive price with no travel or fuel surcharges added.

Most equipment manufacturers recommend that you change your antifreeze a minimum of every 12 months or 2400 hours.

Rental units are available at reduced rates if you choose our shop for a more thorough service.
